The New College
University of Madras

NOTABLE PROJECTS

Finobi   *AI ASSISTANT*
Finobi
- An AI assistant based advanced CRM for financial advisors
- Used latest tech stack and robust platforms for greater security and solving complex business requirements
- Built using Next.js, Python, Langchain with intuitive data flow.

Client Portal / SMSF Portal   *Business Portal*
Carisma Solutions
- Took ownership of critical issue resolution impacting business operations, reducing friction between clients and internal teams.
- Designed and developed multiple full-stack portals (Angular, Laravel, .NET Core) from scratch, handling end-to-end deployment.
- Collaborated directly with end users to translate operational workflows into scalable, user-centric application logic, improved job delivery time by 20%.

Carisma LMS   *Customized LMS*
Carisma Solutions
- Initiated the frontend development of a custom LMS to meet complex internal business requirements, ensuring scalability and modularity.
- Collaborated closely with the design team to define optimal user flows that addressed unique organizational learning needs.
- Introduced custom tracking factors, improved upskilling with detailed analytics, added Q&A tailored to different verticals.

Navigatio   *Flight TIcketing*
Navigatio
- Developed a cross-platform mobile app for corporate flight bookings using Ionic and Angular, targeting both iOS and Android.
- Built the frontend architecture from scratch with a focus on performance, scalability, and native-like UX.
- Collaborated on intuitive UI/UX design to enhance user experience and drive higher booking conversions.

20+ Website Development Projects   *Laravel, Shopify, Wordpress*
Benfy
- Built websites tailored to several clients' business requirements.
- Mainly used Laravel for modular development and easing server loads.
- Worked in several e-commerce projects using Shopify and Wordpress.

Freelancing Projects   *PHP, Android, Wordpress, Drupal*
- Self-taught in development, strategy, and client handling — independently closed deals and delivered end-to-end solutions.

TMS & Oracle NetSuite   *.NET, NetSuite*
Steadfast Technology Services Pty. Ltd.
- Task Management System was my first project in my career. Using .NET I was assigned to build task management modules.
- Worked in Oracle's NetSuite platform in writing scripts, debugging issues and assisting my seniors.
